CHAIR HENNIG

Strongly based on the classic Shaker style from the 19th century (in the design language also known from Scandinavian design and modern reinterpretations of HAY), for example, this chair with its delicate rungs and slightly cambered feet looks very sophisticated and graceful. A clear line management (renouncement of any, superfluous ornaments) and high functionality determined at that time the form language of this furniture. Modern and novel nowadys, the chair is nowadays almost more like vintage style.
