Robuste Outdoor-Stoffe: Striva und Liso /
Durable Outdoor Fabrics: Striva and Liso /
Tissus d'extérieur résistants : Striva et Liso

Straightforward, understated, timeless – the Lorcan lounge system impresses with clear forms, comfortable upholstered elements and a versatile design suitable for outdoor areas. Consisting of a corner element, 1-seater and 2-seater elements as well as side and coffee tables, the system offers flexible design options. The frame is available either in anthracite powder-coated aluminium or aluminium with a high-quality wood-look finish and blends harmoniously into a wide range of environments. The seat and back cushions are fitted with removable and washable Striva or Liso covers. Both outdoor fabrics are ideally suited for demanding applications in gastronomy, hospitality and project environments. The Striva fabric with maritime stripes is made of 100% solution-dyed acrylic and impresses with excellent UV and light fastness (7/8) as well as resistance to chlorine and salt water. The Liso fabric is lightfast, durable (20,000 abrasion cycles), weather-resistant and particularly easy to care for thanks to its water repellence (1,000 mm water column) and stain protection. The cushions should be protected from moisture and stored completely dry.

• Flexible lounge system: corner, seating and table elements for customised outdoor designs
• High-quality material selection: aluminium frame in anthracite or elegant wood look for durable contract solutions
• Robust outdoor fabrics: Striva and Liso for demanding applications in gastronomy, hospitality and projects
