

ARM CHAIR ENRIKO

The Enriko armchair combines a powder-coated aluminium frame with a quick-drying plastic weave in a rattan look. It is weatherproof, UV-resistant and therefore ideal for permanent use both indoors and outdoors. The very high stackability saves space in storage and makes handling in day-to-day operations significantly easier. The weave is extremely low-maintenance: wiping is sufficient, no re-treatment is necessary. For guests the chair provides noticeably good seating comfort because the flexible weave gives slightly and adapts to the body. All in all, it delivers a strong value-for-money proposition without compromises in robustness and function.

- Extremely weatherproof and quick-drying thanks to powder-coated aluminium and plastic weave in a rattan look.
- Very highly stackable for maximum space savings and efficient handling in daily gastronomy operations.
- Low-maintenance and comfortable, because the flexible weave adapts to the body and only needs to be wiped clean.
