ARMCHAIR EVREN

Evren made of glass-fiber-reinforced plastic is extremely stable and designed for daily professional use. The classic rope aesthetic is reinterpreted as a state-of-the-art polypropylene construction, manufactured using the latest 3D injection molding technology. This gives you an elegant woven look with reliable shape stability, without fraying or sagging. UV-resistant and weatherproof, it is ideal for terraces, beer gardens, and outdoor areas. The surface is easy to care for: wipe briefly, done. And when space is needed, the chair can be stacked and stored efficiently.

• Rope look, rethought: Elegant woven aesthetic as high-tech polypropylene thanks to 3D injection molding technology.
• Robust: Glass-fiber-reinforced, extremely stable and dimensionally stable – without fraying or sagging.
• Outdoor & efficient: UV-resistant, weatherproof, easy to clean, and stackable for fast workflows.
